

David Ros Ferrer

Software Engineer | Full Stack Developer

STATEMENT

Hi, I'm David Ros, or simply Ros, a Software Engineer and Full Stack Developer with an insatiable passion for technology and creativity. Since my self-taught beginnings at the age of 11 in the world of programming, I've been immersed in the exciting journey of bringing ideas to life through lines of code. My unwavering curiosity has led me to explore and learn in the realm of development, while combining my love for music, video games and film every step of the way.

Full Stack Developer & UX/UI Designer • elpernile

Sep 2025 → Oct 2025 Manresa, Spain (Remote) (On demand project)

Developed a professional web platform for premium catering services in Spain, featuring ham cutters, gourmet beverage bars, and waitstaff for exclusive events. Built with Next.js, React, TypeScript, Tailwind CSS, Supabase, and deployed on Vercel to generate qualified leads and position the brand as a national reference in premium catering.

Key Achievements:

- Increased lead generation by 30% within the first three months through targeted SEO and user-centric design
- Implemented comprehensive SEO optimization strategies to improve online visibility and lead generation
- Developed fully responsive design ensuring optimal user experience across all devices
- Built robust admin panel for efficient content management and real-time updates
- Created email system streamlining budget process for premium catering services
- Implemented analytics dashboard for data-driven insights and performance tracking
- Optimized platform performance and security for reliable operation at scale

TOUS Senior Front-End Developer • TOUS

Jul 2024 → Jul 2025 Manresa, Spain (Hybrid)

Led front-end development initiatives focusing on performance, scalability, and maintainability as part of the CRO team. Implemented advanced problem-solving techniques and A/B testing to optimize user experience and conversion rates. Collaborated with backend teams for seamless API integration and state management.

Key Achievements:

- Enhanced user experience and conversion rates (around 10%) through advanced problem-solving and optimization techniques
- Boosted app performance and scalability via streamlined front-end coding
- Deployed A/B testing and evidence-based trials, boosting conversion metrics
- Guaranteed top-tier user experience through multi-browser support and sophisticated troubleshooting
- Partnered with backend squads for smooth API connections and data flow management
